

# Abloy PL350 Series Padlock

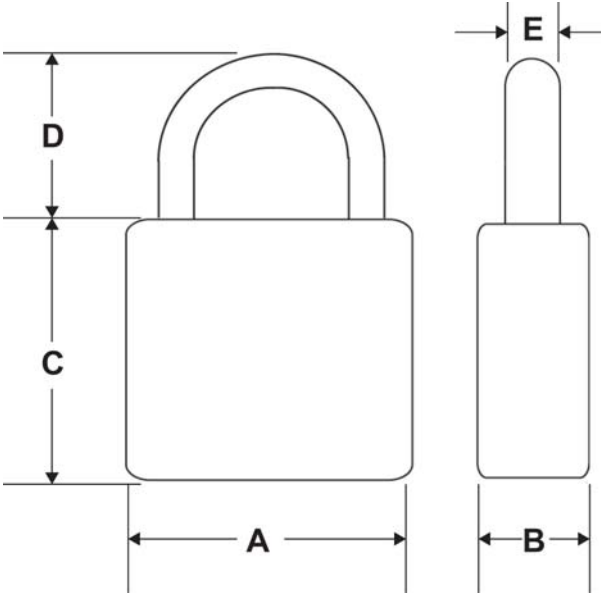

Abloy® PL350 Series Padlocks are constructed with a case-hardened steel body that provides protection for high security applications, such as: containers, train wagons, trucks, lorries, warehouses, etc.  
 Equipped with case-hardened boron steel shackle at 35/64" in diameter.

All Abloy® padlocks use unique rotating disc cylinders and offer maximum key control with maximum security. Abloy® padlocks can be master-keyed with several million combinations available.

Abloy® padlocks are highly resistant to wear, dirt, moisture, corrosion and freezing.
