

# Abloy Cam Locks

Abloy® uses a unique disc locking principle, making the lock virtually pickproof. There are no pins or springs, which in other lock mechanisms can malfunction through wear, dirt, moisture, corrosion or freezing. For maximum protection against drilling the first disc is hardened steel and free rotating.

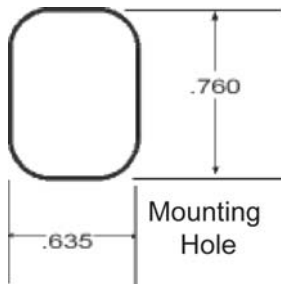

All Abloy® keys are constructed of nickel silver which does not wear the inner parts of the cylinder.

Abloy keys are constructed for silver nickel which reduces wear on the internal parts of the lock.

Available in the Exec and Sentry Keyways

LSI Part Number	"A" Dimension	Keyway
<b>Abloy Cam Locks</b>		
AB3343E	3 / 4"	EXEC
AB3373E	3 / 4"	EXEC
AB3375E	7/8"	EXEC
AB3377E	1-1/8"	EXEC

Code	Rotation	KeyPull
1	90 Clockwise	1 KeyPull
2	90 Clockwise	2 KeyPulls
3	180 Clockwise	1 KeyPull
4	180 Clockwise	2 KeyPulls
