

Abloy PUCK Padlock

The **Abloy PUCK Padlock** provides patented protection in the popular “PUCK” style padlock. Constructed out of solid machined steel with a concealed shackle.

Uses the Abloy vending type cylinder for the lock that is available in either EXEC or the new Sentry.

All Abloy locks provide extreme protection from the environment, such as rain, snow, freezing, moisture and dirt. Abloy locks are great for outdoor or marine applications.
