

Cobra FLEX® Puck Padlock

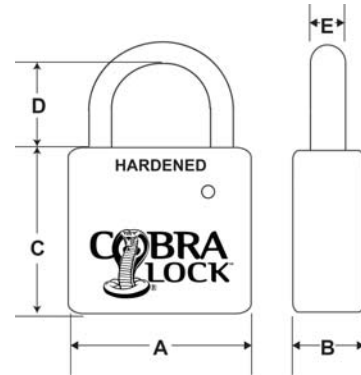

The **Cobra 8500 Series FLEX® Padlocks** are the newest in our line of Changeable Padlocks. The Cobra 8500 will accept standard 7/8" cam locks such as the Cobra 7, CobraMatic7, Medeco and Abloy lock cylinders.

The Cobra 8500 FLEX Padlock is constructed of hardened steel with a hardened steel shackle.

The shackle on the Cobra 8500 Flex Padlock is user changeable to either 1 inch or 2 inch hardened steel shackles.

Our FLEX Padlock has received a U.S. Patent and when combined with a patented lock cylinder the security is greatly increased.

Shackle	A-Dimension	B-Dimension	C-Dimension	D-Dimension	E-Dimension
1"	2-1/8" (53.975mm)	1-1/8" (28.575mm)	1 3/4" (44.45mm)	1" (25mm)	7/16" (11mm)
2"	2-1/8" (53.975mm)	1-1/8" (28.575mm)	1 3/4" (44.45mm)	2" (50mm)	7/16" (11mm)
