

Medeco Cam Locks

medeco[®]
HIGH SECURITY LOCKS

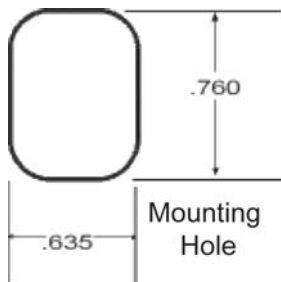

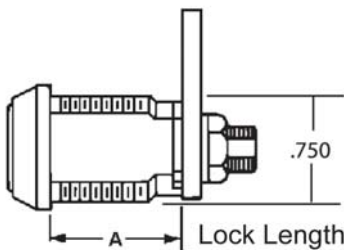

All Medeco cam locks are protected by hardened steel anti-drill pins at critical points and incorporate Medeco's patented, double locking principle which renders the lock virtually pickproof.

Medeco cam locks are recognized by experts throughout the world as the standard for high security in a 3/4" diameter lock. No other lock can rival Medeco cam locks against surreptitious entry, resistance to physical attack, and maintenance of key integrity.

Available in either the Biaxial keyway or the new patented M3 keyway.

LSI Part Number	"A" Dimension	Keyway
Medeco Cam Locks		
ME-6030	11/16"	Biaxial
ME-6053	5/8"	Biaxial
ME-6060	5/8"	M3
ME-6045	7/8"	Biaxial
ME-6058	3 / 4"	Biaxial
ME-6049	1-1/8"	Biaxial
ME-6060	1-1/8"	M3
ME-6054	1-1/2"	Biaxial

Code	Rotation	KeyPull
1	90 Clockwise	1 KeyPull
2	90 Clockwise	2 KeyPulls
3	90 CounterClockwise	1 KeyPull
4	90 CounterClockwise	2 KeyPulls
5	180 Clockwise	1 KeyPull
6	180 Clockwise	2 KeyPulls
7	180 CounterClockwise	1 KeyPull
8	180 CounterClockwise	2 KeyPulls
